

System Integration Engineer (f/m/d)

Shape the digital future of time tracking with us – as a System Integration Engineer, you will develop and implement smart software solutions that seamlessly connect TimeTac with our customers' systems.

Graz

Full-time employee

TimeTac is a continually growing and innovative software company with a focus on developing and providing web-based and mobile time tracking solutions. We maintain a modern, open corporate culture with a strong vision and a great working atmosphere in which creative thinking is encouraged. The products of TimeTac are among some of the leading cloud applications in the categories of time tracking and absence planning solutions.

Your future Role

- Design, implement, and maintain interfaces, including necessary integration processes, to integrate TimeTac into our customers' existing system landscapes
- Further develop our internal integration framework "TimeTac Connect"
- Define and implement custom configurations to meet specific customer requirements
- Optimize and continuously enhance our existing interfaces
- If needed provide consulting services to our customers from the pre-sales phase through requirements analysis to successful implementation in the post-sales phase
- Create and maintain technical documentation for our development processes in Confluence
- Collaborate closely with the Customer Care, Customer Success, Product Management, and Backend teams as part of customer projects and product developments
- In this role, you will be part of the integration team and report to our Team Lead Integrations

Your Skills

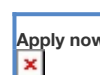

- Ongoing or completed studies in computer science, (technical) mathematics, physics, software engineering, or a related field
- At least one year of professional experience, ideally with focus on interface development
- Strong programming skills, e.g., in PHP or Python, and experience with database systems such as MySQL
- Proficient in working with REST APIs
- Strong analytical skills, mathematical understanding, and a structured approach to project implementation
- Excellent communication skills and a passion for both teamwork and customer collaboration
- Very good English skills and good German skills (at least level B2) in spoken and written form

This may inspire you

- a modern office in the city center of Graz
- flexible working time models
- mutual appreciation and respect
- possibility to work up to 2 days per week remotely
- 4 € food voucher for ever day in the office
- continuous learning culture
- multicultural team with great teamspirit
- initiatives for mental and physical fitness

We welcome applicants of any gender and origin to become part of the success story of our highly motivated team.

Without relevant professional experience, we offer a minimum salary of € 42.224,- gross per annum (ST1, Entry-Level) based on a full-time role and on the IT collective agreement. Individual qualifications and experience relevant to the open position will be considered for the salary, and there is a clear willingness to overpay.
