

(Senior) Product Manager (f/m/d)

As a Product Manager, you're not just managing features - you'll shape the future of TimeTac, ensuring that we build a timetracking solution that truly matters.

Graz

Full-time employee

The Product Manager is a purposeful role responsible for driving product initiatives by ensuring that new features align with business objectives, technical feasibility, and customer needs. By collaborating closely with Product Owners, UI/UX designers, and development teams, you will play a critical role in planning, executing, and delivering impactful product enhancements.

Are you ready to build a product that leaves a lasting impact?

About TimeTac

TimeTac is a continually growing and innovative software company with a focus on developing and providing web-based and mobile time tracking solutions. We maintain a modern, open corporate culture with a strong vision and a great working atmosphere in which creative thinking is encouraged. The products of TimeTac are among some of the leading cloud applications in the categories of time tracking and absence planning solutions.

Your future Role

- Create new features and lead them through the implementation process in close collaboration with the Product Owners until they go live.
- Analyze customer feedback and market trends to inform software improvements and drive product innovation.
- Support our product management team with your research skills to gain valuable insights about our competitors in the market.
- Define and refine product requirements, ensuring clear specifications and alignment with business goals.
- Facilitate collaboration between Product Owners, development teams, and other departments to manage dependencies and ensure seamless delivery.
- Influence the overall product direction, focusing on user adoption and emerging trends.
- Communicate progress and insights to internal stakeholders and leadership, ensuring strategic alignment.
- In this role, you will be part of the product team and report to our Head of Product Management.

Your Skills

- Minimum 5+ years of experience in product management, preferably in an agile software development environment.
- Completed studies in Software Development, Business Informatics, Information Management, or a related field.
- Deep understanding of customer needs and the ability to translate them into meaningful product features.
- Strong analytical skills for evaluating competitors, market trends, and customer feedback.
- Skilled in gathering and communicating complex requirements with clarity to both stakeholders and technical teams.
- Excellent German and English skills, both written and spoken.

This may inspire you

- a modern office in the city center of Graz
- flexible working time models
- mutual appreciation and respect
- possibility to work up to 2 days per week remotely
- 4 € food voucher for ever day in the office
- continuous learning culture
- multicultural team with great teamspirit
- initiatives for mental and physical fitness

We welcome applicants of any gender and origin to become part of the success story of our highly motivated team.

The stated position is available for full-time employment (38,5h/week).

We offer a minimum salary of € 53.802 gross per year (ST1, Regelstufe) with at least three years of relevant experience in Product Management of software based on the IT collective agreement. Considerable over-payment is possible for candidates with relevant professional experience and qualifications.
